ris, while in Minneapolis. Toung & McMurray, Tailors, 42 N. Penn. st.

OFFICIALS DO NOT TALK

NUMEROUS MEETINGS, BUT LITTLE INFORMATION LEAKS OUT.

Trunk Line Executive Committee to Meet To-Morrow-Western Roads to Cut Off More Commissions.

Seldom have so many important meetings of traffic officials been held as within the past ten days, but little accurate information as to the proceedings has leaked out. Railway men usually well informed appear to know nothing about the plans under consideration. There appears to be a growing belief in interested circles that the outgrowth of the efforts now being made to secure stability of freight rates may end in a money pool on all competitive freight business. It is stated this was the object of the appointment of the four committees by the presidents at their recent New York meeting. The presidents will meet in Chicago to-day, when the four committees are expected to report, and if these are able to reach agreements regarding the business in their respective territories it ought not to be difficult to make the understanding general. The fact that members of the Interstate-commerce Commission conferred with the presidents during their New York meeting would seem to indicate they are fully informed of the plan, whatever it may be, by which the executives aim to secure the restoration and maintenance of rates, and it is probable that whatever action is taken will be assured of their sanction. No word has been received from New York indicating any action by the presidents on the excess fare question, and the current belief is that they will shift the issue and fall to take any decisive sleeping and dining cars day and night. steps. There is a story that the presidents will pass over the excess fare matter altogether. If this should be done the curential lines are about ready to break away and fight for what they consider their rights, and the end will probably not be as peaceable as some might desire. Railroad men are watching the coming storm with a great deal of interest, for the reason that they wish to know just how far the power of the controlling forces extends over these differential roads, which are supposed now to be owned by other roads. The question which they are asking is whether the control which the big financiers enjoy over both standard and differ-

them in believing they can control them down to the last degree. Personal, Local and General Notes. General Passenger Association lines have voted in favor of abolishing the practice of granting one free ticket for parties of more

ential roads is strong enough to warrant

The Chicago & Alton announces that the road will make half rates to points in Kansas to harvest laborers in parties of five to ten.

E. D. Kenna, first vice president and general solicitor of the Santa Fe lines, passed through the city yesterday afternoon on his way West. The general managers of the roads com-

prising the Indianapolis Union Railway Company will hold their regular monthly meeting to-day. The directors of Cleveland, Cincinnati Chicago & St. Louis have declared a divi-

iend of 1% per cent. on the preferred stock. payable July 20. The Lake Erie & Western is now running modern combined parlor and dining cars between Peorla and Sandusky. Meals are

served a la carte. The Chicago & Northewestern yesterday pened two new branches between Belle Plaine and Mason City, Ia., and between Blue Earth and Fox Lake, Minn. O. H. Jackson, master mechanic of the

Belt road, yesterday went to Saratoga to attend the annual meeting of the Master Mechanics' and Master Car Builders' As-Train 5, over the Panhandle, for two or three weeks past has hauled west through ndianapolis one to three car-loads of emi-

trants per day, many of them going to outhwestern States. J. M. Kenney is one of the ploneer rail-road employes of Indiana. He has been in continuous service on the Monon thirtyseven years, serving as roadmaster, super-intendent of bridges and master carpenter. W. W. Mitchell having resigned as general superintendent of the St. Louis, Kansas City & Colorado to engage in other business, the office will be discontinued and

the duties assumed by the general man-The Kansas City Southern yesterday opened a city ticket office in Fort Smith, Ark., with T. C. Smith as city passenger and ticket agent. Heretofore none of the Fort Smith roads has maintained a city

ticket office in that city. J. Q. Van Winkle, general superintendent of the Big Four, will to-day meet officials of the Erie, the Hocking Valley and the Columbus, Sandusky & Hocking at Marion, O., to settle the question of building a union station at that place.

It is understood that an appeal will be taken from the order of sale made by as sure pay. Judge Baker of the Louisville, Evansville & St. Louis Railroad, and that a sale is not imminent. This appears probable from the form of the order, which specified no day of sale.

The reports of passenger officials are to the effect that in no year of the past has the travel to the seashore been as heavy in June as the present year. On the Big Four and the Pennsylvania lines nearly every through train East hauls one to two extra sleeping cars.

One day last week the White Special on the Big Four made the run from Sheldon to Kankakee, thirty miles, in thirty minunes. It is stated that but few passenger trains in the country make faster time than is made by the White Special between Cincinnati and Chicago.

The committee of executive officers of Western lines have recommended that no commissions be paid after June 30 to any excursion agency on either tourist or individual tickets. This affects Cook's, Raymond & Whitcomb's, Gaze's, Grafton's and all other tourist agencies. J. R. Cavanaugh, car service superin-

tendent of the Big Four, returned on Sunday from an extended Western business trip. He says it is stated that not more than 50 per cent of the corn in Iowa has been marketed,, and 30 per cent. of last year's crop in Illinois is yet to be mar-The following officers of the Monon were on Sunday transferred from Bloomington

to Lafayette: F. W. Quimby, trainmaster of the first division; J. B. Sucese, trainmaster of the second division; D. C. Wagner, chief dispatcher of the first division. and E. B. Cassell, chief train dispatcher of the second division.

The Central Freight Association, which it s proposed to recognize, includes all the roads east of Chicago and St. Louis and west of Pittsburg and Buffalo and north of | dent, Auditor Harry B. Smith, Treasurer the Ohio river. The association is one of Armin Koehne, William Pollard and Thomthe oldest of the traffic organizations. Its as Madden. chairman has almost absolute authority in

The executive committee of the Pittsburg, Cincinnati, Chicago & St. Louis has authorized the work of converting the present line from Point Bridge to Sheridan to a four-track system, and contracts have been entered into with the Drake & Stratton Company for the grading of important stretches of the work.

Professor Woodford D. Anderson, of the University of South Dakota, is writing a book on "Transportation" for use in colleges and universities. Fifteen of the leading railroads have granted him passes over their roads, so he may become thoroughly conversant with the separate lines as well as the general subject.

Scalpers in Chicago and New York are reaping a harvest in tickets to the Repub-lican convention in Philadelphia. They have discovered a way to manipulate the transportation openly and successfully, and during the past two or three days Chicago brokers, in collusion with those in New York, have netted thousands of dollars.

lines. He graduated from the mechanical engineering department of Purdue University in 1896, entering the service of the Panhandle, and his promotions have been

the Master Car Builders' Association of the United States began in Saratoga yesterday with a large attendance. It was called to order by President C. A. Schroyer, of Chicago. Reports were submitted by the secretary, Joseph W. Taylor, of Chicago, and the treasurer, C. W. Demarest, of Baltimore. Discussions of subjects of interest to the convention occupied the session Circulars announcing the absorption of

the St. Paul & Duluth Railroad by the Northern Pacific have been issued by R. Somers, president of the St. Paul & Duluth, and C. S. Meilin, president of the Northern Pacific. Under date of June 15 a formal deed of transfer was drawn up and executed. The Northern Pacific paid \$60 for its St. Paul & Duluth shares of stock, which was higher than the market price.

There has been a story going for the last few days that it is the intention of the general officers of the Lake Shore to make another radical change in the time of that road. The day at first set was for Sunday last, but since that time it has been decided that probably it had better lay over until after the conference of the presidents, when the matter can be talked over with the men in the East. It is the belief now that the change in time will be made next

Locomotive builders report a falling off in the number and character of the orders placed for motive power by the various railroads. A member of the Baldwin locomotive works attributes this not to the fact that the needs of the various railroads had been supplied, but rather to the fact that, owing to the recent steady decline in the price of materials entering into locomotive onstruction, railroad managers are withholding their orders until prices have become more settled and in the expectation

Delegations going to Philadelphia to attend the national Republican convention will not be allowed to occupy the sleeping cars during the meeting. This was brought about, it is said, by the hotel proprietors, who claim that the city derives no benefit from such meetings when the majority of delegates eat and sleep in the cars and leave the hotels empty. This rule will not apply at Kansas City during the national Democratic convention, as Western lines have agreed to give delegations the use of

passenger agreement, which was en- | fore the committee. He declared that i

Permanent Organization Effected-The Plans Discussed.

The Indianapolis Furniture Manufacturers' Association held a meeting at the Comnercial Club rooms last night and elected the following permanent officers: President, W. L. Hagedorn; vice president, Herman Lauter; secretary, R. M. Irwin; treasurer, Henry Bauer.

The evening was devoted to a discussion of the projected Indiana Commercial Museum and Auditorium. The project was heartily indorsed by all present, and quite a number of speeches were made relative to the benefits which will accrue to Indiana manufacturers when the contemplated building is completed. Addresses were made by Frederick Francke, of the Francke Hardware Company; Henry Bauer, of the Cabinet Makers' Union; R. M. Irwin, of W. L. Ott & Co.; W. L. Hagedorn and

It was resolved at the meeting that no retailing whatever would be allowed in the furniture department of the museum, and M. R. Hyman, general manager of the Auditorium, was instructed to call on all the members of the association and other furniture men in the city and contract for space in the museum building. The association passed resolutions of con-lolence on the death of the late James

The Enumerators Completed Their Tasks Yesterday.

Sullivan May Go Free. any of the prosecuting witnesses that were before the grand jury when John E. Sullivan, the absconding county clerk, was indicted. Samuel Hanway, one of the losers, and on whose evidence Sullivan was indicted on a charge of embezzling \$4,000, is dead. Edward Tyler, another important witness. cannot be found, and others are missing or dead. There remains but one case in that is the one in which he is indicted for conspiracy to commit fraud. In this case Tom O'Neal was also indicted, but the indictment against him was nollied. Sullivan's trial is set for an early date. and unless more evidence is gathered the is no chance to secure additional indictments, as the statutes of limitation will prevent further action.

A Housewarming.

Members of the Indianapolis Light Artillery surprised Otis C. Hann, one of their comrades, last night with a housewarming at his new home, 3029 North Capitol avenue. The evening was most enjoyably spent, music being furnished by the artillery quartet.

Thousands of Sparrows Poisoned. CHICAGO, June 18 .- Thousands of dead sparrows have been found in the streets and avenues of Englewood and Asbury Park during the last twenty-four hours. The little feathered bodies were lying in ounches along the gutters and curb stones and the middle of the roadways. Investigation revealed the fact that the birds had been poisoned by eating a mixture of paris green and bread. Where they got the poison and who mixed it are questions yet undetermined. John G. Shortal. of the Iilinois Humane Society, said: "I shall investigate the case. It is a most A. R. Kipp, son of N. H. Kipp, agent of cruel act, and should be condemned by the Empire line at Indianapolis, has been everyone. It is also punishable by law. That was the last time an Indian crossed given the position of inspector of the meand if I can find the guilty parties I will the plate.

Chanical department of the Panhandle punish them."

With six runs to the bad Buffalo came

New York43 People who arrived down town last evening near the hour of 7 o'clock wore a disgruntled look, and if a person asked one of the crowd, who had been to Washington Park, the result of the game between Indianapolis and Buffalo the answer was invariably: "Don't ask me, for it is a sad ! story." It was a pitiable tale, and made

more galling from the fact that one of the first cars to leave the park after the game was derailed, owing to the rails spreading, this side of State street. The crowds were held back for about forty minutes, and during that time the fans tried to console themselves by saying that there are days to come when they will not have to witness a defeat of the home team in such a gift-like manner as was the contest yes-

The fans stood around in small groups asking each other how it was that Indianapolis didn't win, but after much discussion the only plausible answer reached was that Buffalo won, which prevented the Hoosiers from carrying off the big end of the score. In the early innings the Indians played as if they had been rejuvenated since their return home, and went a half dozen tallies to the front. It looked like a walkaway for Indianapolis, but in two innings the cripples came from under their fast-playing spell, like a man on the operating table comes from under the effects of an anaesthetic, and in that time the Bi sons took advantage of the stupor into which the Indians had fallen, and made enough runs to not only wipe out the supposedly safe lead held by Indianapolis, but to jump into the front, where they finished.

WHAT CAUSED IT. No one-in particular can be held responsible for the loss of the game, for it was a mixture of misplays and circumstances which brought about the result. The eighth inning witnessed an avalanche of tallies for the Bisons, and the quartet of men who crossed the plate with runs wended their way around the circuit through the errors of Madison and Goar. A batting rally, together with a base on balls, gave the visitors enough in the ninth inning to place them on top. The game was the first that has been played at home since the Hoosiers returned from their Western trip, and a large crowd turned out to welcome Watkins's men. As the Hoosiers marched from the clubhouse to the center of the field to engage in their preliminary warming up they were greeted with cheers, and when the game was called they went into the battle, and were soon six runs to the good, the Buffalo aggregation having failed to score. But the good cinch was not to last throughout the battle. Goar did excellent work in the early innings. Toward the last the soreness in his arm became apparent, but he felt able to continue the Hooker was found frequently during the opening scores of the play, but he grew better as the game progressed, and as a finale to his work struck out two men in the last inning, wiping out the chances of Indianapolis winning the game. Madison was a little off in his fielding, but his stick work was very encouraging, as he made four hits. Powers drove the ball through the fielders for three hits. Magoon greeted with applause when was went to the bat, in recognition the great work he has done on the team, and before the battle was over he made a two-bagger and played a good, clean, fast game at second. In the second inning Madison registered a rank error, but wiped it out in a minute by completing a fast double play.

A PRETTY CATCH. The prettiest play made during the contest was executed by Atherton, Buffalo's second baseman, who ran into short center field and caught with his right hand a fly from Hickey's bat. It was a phenomenal catch and the kind that is made but once in a season. Although Buffalo started the first inning with a hit by Gettman. who stole second, the vistors did not score. The Indians did much better and made a trio of runs in the initial inning, which were believed enough to win. Hogriever had three balls called on him and while waiting to be sent to first on a pass was struck out. Powers then hit to left for a base and Magoon was presented with a ticket to first. Sevbold's safe drive to center sent Powers across the plate. Madison scored Magoon with a single and sent Seybold to third. Kelly's fly out to left permitted Seybold to touch the rubber. The next scoring done was accomplished by the Hoosiers in the third inning, when a brace of runs were made. Powers and Magoon both went out, but Seybold skated to first on four balls. Madison hit to right Brooklyn .1 1 1 0 0 0 0 0 0 3-6 12 for two bases and Kelly followed with a single, placing the other two men on the scoring tablet. In the fifth the Hoosiers made another run, sending them an even half dozen to the good. Hickey was hit on the leg and Goar's sacrifice sent him to second. He showed the crowd that the ball thrown by Hooker did not hurt him

and stole second, Schreckongost throwing into center field, allowing Hickey to score. A SINGLE TALLY. In the fifth inning the Buffaloes started their run getting by chalking up a single tally. Gettman placed one against the right field fence for two bases. The next two men flew out, but Atherton hit one to Kelly which struck his leg and bounded over toward the bleachers, allowing Gettman to score. The next man up hit to Kelly, retiring the side. In the seventh Madison was sent around the circuit, having reached first on an error by Andrews. He pilfered second, Schrecongost's wild throw sending him to thire, Kelly and Flynn went out, but Atherton failed to pick up a little grounder from Hickey's bat, allowing Madison to score With six runs to the bad Buffalo came | Bend defeated Nebraska 15 to 6 this after-

to bat in the eighth inning and fortune smiled upon the visitors. As a starter Mad-ison made an error on Halligan and Atherton hit to left for two bases, sending Halligan the rest of the way around the circuit. Schrecongost went out and Carsey hit to Goar, who threw wildly to first, allowing Atherton to reach home and Carey to perch on third. Madison's second error of the inning scored Carey and placed Hallman on first. Andrews's single sent him to third and he scored on Hooker's out. Then came the ninth, in which the Buffalos made three, going one to the front. Shearon hit the right field fence and landed on third. Halligan singled, scoring him. Atherton walked and Schrecongost sacrificed them to third and second, re-

He drove one past the pitcher and the two men scored. Madison started the last of the ninth with a single, but the side was retired without a run. The score: Indianapolis. A.B. R. H. O. A. Cantillon is a great improvement over Sheridan. Barnes or Kellum will be used against Buffalo to-day. Powers's work with the stick yesterday was as refreshing as sea breezes. When Madison laced one out in the ninth

the fans took courage, but the next three

Play will be called at 3:45.

men were retired.

The batting yesterday was even but the Bisons were lucky in bunching their hits Yesterday's game was a hard one to lose, but it is the uncertainty of baseball that makes the game so popular. It is not very often that Madison makes

so many errors and as his stick work was so superb he will be forgiven. Gettman's work in center yesterday was very fast. He deprived the Hoosiers of several hits by his remarkable catches. Hooker grew better as the game progressed yesterday and in the last inning he struck out Kelly and also Hickey, who was

Goar thought himself able to pitch throughout the game yesterday, but he re-ceived bumps which were not calculated to be presented to him. To-morrow will be ladies' day and a large crowd will be present as it has been some time since the ladies have had an opportunity of seeing the Hoosiers.

The game of baseball Saturday between Lilly & Stalnaker's Jewels and Vonnegut's Majestics resulted in a score of 8 to 4 in favor of Lilly & Stalnaker's Jewels. Atherton's catch of Hickey's fly surprised bim as much as it did the crowd. It was of the accidental variety, but he received great applause from the impartial crowd. Carey is the sort of batter that always makes a hit at the wrong time-according to the opposing side's way of looking at it, and yesterday he brought in the winning runs with a single past Goar.

Only a few of the Indians appeared on the field yesterday without some sort of brace bandage, as they are nearly all crippled. Flynn and Seybold ran the bases 300 High-Salaried Performers - 500 like they were built on the bias.

NO NEWS FOR A MONTH

CENSUS RETURNS WILL BE SLOW IN BECOMING PUBLIC.

Wheeler Made Brigadier General and Assigned to the Lakes-Treasury Statement-Armor Bulletin.

WASHINGTON, June 18 .- Director Merriam, of the Census Bureau, said to-day that the results of the work of the enum erators could not be known for at least two weeks and it might be a month before the first bulletin is issued. He stated positively that the only news in regard to the count would be made public through bulletins issued at the Census Office. The enumerators are strictly forbidden by law to give out information of any kind in regard to their work, and if they violate this law they will be heavily fined. The director said that in view of this condition any figures presented as the work of the enumerators other than those contained in the bulletins of the Census Office would be mere speculation and could be of no value. The count of the population in the large cities is practically completed and about 15,000 enumeration districts have been re-ported as finished. The number of cards received from enumerators up to date is about 89,000. It will require at least five days to check up the work of the enumerators in order to ascertain the payments due them. This will be done in the various cities. When this is finished the cards will be forwarded to Washington, where the actual tabulation of returns will be begun. It is probable that Washington will be the first city whose population will be an-nounced and following this probably will come Cincinnati. Director Merriam said to-day that the work was progressing very

satisfactorily. General Joseph Wheeler to-day received his commission as brigadier general in the army of the United States from President McKinley. By the direction of the President General Joseph Wheeler to-day was assigned to the command of the Department of the Lakes. with headquarters at Chicago. He relieves Brigadier General James F. Wade, who has held that command temporarily in conjunction with his regular command, the Department of Dakota.

The industrial commission has taken a recess until next month when a brief session will be held. Another meeting probably will not be held until some time in September. A subcommittee will meet in Philadelphia June 20 to take testimony, but the hearings outlined for this subcommittee

have been indorsed. The condition of the treasury, divisions of issue and redemption at the beginning of business to-day was as follows: -General Fund.-
